The institute has been various tie up with leading industries through MOU's. It has good academic and placement records.

ABOUT THE WORKSHOP

This workshop will facilitate AI researchers, practitioners and business executives to share their expertise and knowledge with participants. It will provide an interactive forum for discussion on recent and on-going developments, key issues and challenges, and practices related to AI applications. To lay better foundation for the future – to make the connected, smartening world smarter and to embrace AI for the benefit of society, advances in AI and DL, their new innovative applications, and challenges and lessons learned need to be shared and discussed.

WORKSHOP CONTENTS

- ✓ Python
- ✓ Deep Learning
- ✓ Machine Learning
- ✓ AI

OUTCOMES

- At the end of the workshop, the participants will be able to
- Learn essential machine learning and deep learning technology and improve the skill sets to develop powerful AI Applications across various domain
 - Understand the practical challenges experienced in a typical AI development workspace and learn best practices in building AI Applications.

RESOURCE PERSONS

1. **Prof. A. Kalyana Saravanan,**
Associate Professor/CT,
2. **Dr. R. Thangarajan,**
Professor/CSE
3. **Dr. P. Natesan,**
Associate Professor/CSE,
Kongu Engineering College-Perundurai.
